

Hybrid lockers range

HY4

Our hybrid lockers combine a welded steel body for durability with Laminex or Polytec doors for warmth and texture. This 4 door hybrid locker is made in Australia for high-traffic settings. Available in 1 - 8 door options or custom-built to suit your project.

HYBRID LOCKER FEATURES

Body 100% welded steel body with adjustable plinth for levelling. Oven-baked powdercoat for durability

Doors Choose from Laminex & Polytec finishes with matching ABS edging.

Accessories Choose from our lock range. Add numbering, mail-slots or piano hinges for extra strength. Sloping tops & bulkeads also available.
